

# SAFETY DATA SHEET

# 1. Identification

| 1. Identification                            |  |   |
|--|--|---|
| Product identifier                           | KLONDIKE Long Life Turbine   | Oil ISO 68  |
| Other means of identification                |  |   |
| Product code                                 | ISO 68 Long Life Turbine Oil   |   |
| Recommended use                              | Turbine Oil  |   |
| Recommended restrictions                     | None known.  |   |
| Manufacturer/Importer/Supplier               | Distributor information  |   |
| Manufacturer                                 |  |   |
| Company name<br>Address                      | KLONDIKE Lubricants Corporat<br>3078 275th Street<br>Langley, BC V4W 3L4<br>Canada | tion  |
| Telephone<br>Website<br>E-mail               | General Information<br>www.klondikelubricants.com<br>info@klondikelubricants.com   | 1-877-293-4691  |
| Emergency phone number                       | Chemtrec (Within US)<br>Chemtrec (International)                                   | 1-800-424-9300<br>1-703-527-3887  |
| Supplier                                     | Refer to Manufacturer  |   |
| 2. Hazard(s) identification                  |  |   |
| Physical hazards                             | This mixture does not meet the   | classification criteria according to OSHA HazCom 2012.  |
| Health hazards                               | This mixture does not meet the   | classification criteria according to OSHA HazCom 2012.  |
| Environmental hazards                        | This mixture does not meet the   | classification criteria according to OSHA HazCom 2012.  |
| OSHA defined hazards                         | This mixture does not meet the   | classification criteria according to OSHA HazCom 2012.  |
| Label elements                               |  |   |
| Hazard symbol                                | None.  |   |
| Signal word                                  | None.  |   |
| Hazard statement                             | The mixture does not meet the  | criteria for classification.  |
| Precautionary statement                      |  |   |
| Prevention                                   | Observe good industrial hygiene  | e practices.  |
| Response                                     | Wash hands after handling.   |   |
| Storage                                      | Store away from incompatible m   | naterials.  |
| Disposal                                     | Dispose of waste and residues  | in accordance with local authority requirements.  |
| Hazard(s) not otherwise<br>classified (HNOC) | cause respiratory irritation. Inge diarrhea. Product may present a                 | es.<br>ult in classification: May cause mild skin and eye irritation. May<br>estion may cause gastrointestinal irritation, nausea, vomiting and<br>an aspiration hazard, if ingested in large amounts. Aspiration into<br>subsequent vomiting may cause chemical pneumonitis, which can |
| Supplemental information                     | None.  |   |

# 3. Composition/information on ingredients

### **Mixtures**

| Chemical name  | Common name and synonyms                                      | CAS number | %        |
|--|---|------------|----------|
| Distillates, (petroleum),<br>Hydrotreated Heavy Paraffinic | HEAVY BASE OILS (HEAVY PARAFFINIC<br>HYDROTREATED DISTILLATE) | 64742-54-7 | 60 - 100 |

\*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

| 4. First-aid measures  |  |
|--|--|
| Inhalation   | Move to fresh air. Call a physician if symptoms develop or persist.  |
| Skin contact   | Wash off with soap and water. Get medical attention if irritation develops and persists.   |
| Eye contact  | Rinse with water. Get medical attention if irritation develops and persists.   |
| Ingestion  | Call a physician or poison control center immediately. Never give anything by mouth to a victim who is unconscious or is having convulsions. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.   |
| Most important<br>symptoms/effects, acute and<br>delayed                     | May be mildly irritating to skin, eyes and respiratory system. Symptoms may include redness, edema, drying, defatting and cracking of the skin. Symptoms may include stinging and tearing. Symptoms may include upper respiratory irritation, coughing, and breathing difficulties. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Product may present an aspiration hazard, if ingested in large amounts. Aspiration into the lungs during swallowing or subsequent vomiting may cause chemical pneumonitis, which can be fatal. |
| Indication of immediate<br>medical attention and special<br>treatment needed | Treat symptomatically.   |
| General information  | If you feel unwell, seek medical advice (show the label where possible).   |
| 5. Fire-fighting measures  |  |
| Suitable extinguishing media   | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).  |
| Unsuitable extinguishing media   | Do not use water jet as an extinguisher, as this will spread the fire.   |
| Specific hazards arising from the chemical                                   | During fire, gases hazardous to health may be formed.  |
| Special protective equipment<br>and precautions for firefighters             | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.  |
| Fire-fighting<br>equipment/instructions                                      | Ventilate the contaminated area. As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Prevent fire extinguishing water from contaminating surface water or the ground water system.  |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials.   |
| General fire hazards   | No unusual fire or explosion hazards noted.  |
| Hazardous combustion<br>products   | Carbon oxides. Sulphur oxides. Phosphorus oxides. Nitrogen oxides (NOx). Hydrocarbons.   |
| 6. Accidental release meas   | sures  |
| Personal precautions,<br>protective equipment and<br>emergency procedures    | Keep unnecessary personnel away. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Use only non-sparking tools. Avoid inhalation of vapors and spray mists. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.  |
| Methods and materials for  | The product is immiscible with water and will spread on the water surface.   |

Methods and materials for containment and cleaning up

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Absorb in vermiculite, dry sand or earth and place into containers. Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid discharge into drains, water courses or onto the ground.

# 7. Handling and storage

**Environmental precautions** 

Precautions for safe handling Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Do not ingest. Avoid inhalation of vapors and spray mists. Avoid contact with eyes, skin, and clothing. Use only outdoors or in a well-ventilated area. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Handle and open container with care. Store locked up. Keep away from heat, sparks and open flame. Store in original tightly closed Conditions for safe storage, container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 including any incompatibilities

of the SDS).

# 8. Exposure controls/personal protection

| Occupational exposure limits        | No exposure limits noted for ingredient(s).  |
|-------------------------------------|--|
| Biological limit values             | No biological exposure limits noted for the ingredient(s).   |
| Appropriate engineering<br>controls | If exposure limits have not been established, maintain airborne levels to an acceptable level.<br>Ventilation should be sufficient to effectively remove and prevent buildup of any dusts or fumes<br>that may be generated during handling or thermal processing. |
| Individual protection measures      | s, such as personal protective equipment   |
| Eye/face protection                 | Wear safety glasses with side shields (or goggles). Provide an emergency eye wash fountain and quick drench shower in the immediate work area.   |
| Skin protection                     |  |
| Hand protection                     | Wear appropriate chemical resistant gloves. Advice should be sought from glove suppliers.  |
| Other                               | Wear suitable protective clothing.   |
| Respiratory protection              | In case of insufficient ventilation, wear suitable respiratory equipment. Seek advice from respiratory protection specialists.   |
| Thermal hazards                     | Wear appropriate thermal protective clothing, when necessary.  |
| General hygiene<br>considerations   | Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.  |

# 9. Physical and chemical properties

|  | -                    |
|--|----------------------|
| Appearance                                 |                      |
| Physical state                             | Liquid.              |
| Form                                       | Liquid.              |
| Color                                      | Dark amber.          |
| Odor                                       | Mild petroleum odor. |
| Odor threshold                             | Not available.       |
| рН   | Not available.       |
| Melting point/freezing point               | Not available.       |
| Initial boiling point and boiling range    | > 280 ºC (536 ºF)    |
| Flash point                                | 224.0 ºC (435.2 ºF)  |
| Evaporation rate                           | Not available.       |
| Flammability (solid, gas)                  | Not available.       |
| Upper/lower flammability or exp            | losive limits        |
| Flammability limit - lower<br>(%)          | Not available.       |
| Flammability limit - upper<br>(%)          | Not available.       |
| Explosive limit - lower (%)                | Not available.       |
| Explosive limit - upper (%)                | Not available.       |
| Vapor pressure                             | < 0.01 mm Hg         |
| Vapor density                              | > 10                 |
| Relative density                           | Not available.       |
| Solubility(ies)                            |                      |
| Solubility (water)                         | Insoluble            |
| Partition coefficient<br>(n-octanol/water) | Not available.       |
| Auto-ignition temperature                  | Not available.       |
| Decomposition temperature                  | Not available.       |
| Viscosity                                  | 68 cSt               |
| Other information                          |                      |
| Specific gravity                           | 0.87                 |
|  |                      |

# 10. Stability and reactivity

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport.  |
|---------------------------------------|--|
| Chemical stability                    | Material is stable under normal conditions.  |
| Possibility of hazardous<br>reactions | No dangerous reaction known under conditions of normal use.  |
| Conditions to avoid                   | Avoid temperatures exceeding the flash point. Contact with incompatible materials. Do not use in areas without adequate ventilation. |
| Incompatible materials                | Strong oxidizing agents.   |
| Hazardous decomposition<br>products   | Carbon oxides. Phosphorus oxides. Sulfur oxides. Nitrogen oxides (NOx). Hydrocarbons.  |

# 11. Toxicological information

### Information on likely routes of exposure

| Ingestion  | Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea.  |
|--|--|
| Inhalation   | Inhalation of vapors/fumes generated by heating this product may cause respiratory irritation with throat discomfort, coughing or difficulty breathing.  |
| Skin contact   | May cause mild skin irritation.  |
| Eye contact  | May cause mild eye irritation.   |
| Symptoms related to the physical, chemical and toxicological characteristics | May cause mild skin and eye irritation. Symptoms may include redness, edema, drying, defatting<br>and cracking of the skin. Symptoms may include stinging and tearing. May cause respiratory<br>irritation. Symptoms may include upper respiratory irritation, coughing, and breathing difficulties.<br>Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea. Product may<br>present an aspiration hazard, if ingested in large amounts. Aspiration into the lungs during<br>swallowing or subsequent vomiting may cause chemical pneumonitis, which can be fatal. |

### Information on toxicological effects

Acute toxicity

See below for individual ingredient acute toxicity data.

| Components   | Species  | Test Results                                  |
|--|--|---|
| Distillates, (petroleum), Hydrotreate              | ed Heavy Paraffinic (CAS 64742-54-7)   |   |
| Acute  |  |   |
| Dermal   |  |   |
| LD50   | Rabbit   | > 5000 mg/kg                                  |
| Inhalation   |  |   |
| LC50   | Rat  | > 5 mg/l, 4 Hours (Mist)                      |
| Oral   |  |   |
| LD50   | Rat  | > 15000 mg/kg                                 |
| * Estimates for product may be                     | e based on additional component data not shown.                              |   |
| Skin corrosion/irritation                          | May be irritating to the skin.   |   |
| Serious eye damage/eye<br>irritation               | Direct contact may cause very mild, temporary irrita                         | tion and redness.                             |
| Respiratory or skin sensitization                  |  |   |
| <b>Respiratory sensitization</b>                   | This product is not expected to cause respiratory sensitization.             |   |
| Skin sensitization                                 | Not expected to be a skin sensitizer.  |   |
| Germ cell mutagenicity                             | No data available to indicate product or any compormutagenic or genotoxic.   | nents present at greater than 0.1% are        |
| Carcinogenicity                                    |  |   |
| OSHA Specifically Regulated                        | l Substances (29 CFR 1910.1001-1050)   |   |
| Not listed.  |  |   |
| Reproductive toxicity                              | This product is not expected to cause reproductive or developmental effects. |   |
| Specific target organ toxicity - single exposure   | Not classified as a specific target organ toxicity -single exposure.         |   |
| Specific target organ toxicity - repeated exposure | Not classified as a specific target organ toxicity -rep                      | eated exposure.                               |
| Chronic effects                                    | Frequent or prolonged contact may defat and dry th                           | e skin, leading to discomfort and dermatitis. |

| Further information | This product has no known adverse effect on human health. |
|---------------------|---|
| Aspiration toxicity | Not expected to be hazardous by OSHA criteria.            |

# 12. Ecological information

### Ecotoxicity

P

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

| Components               |                     | Species                                  | Test Results                          |
|--------------------------|---------------------|--|---------------------------------------|

| * Estimates for produc   | t may be based on   | additional component data not shown.     |                                       |
| sistence and degrada     | bility Distillates  | , (petroleum), Hydrotreated Heavy Parafl | finic is considered to be not readily |

|                           | blodegradable.  |
|---------------------------|---|
| Bioaccumulative potential | No data available.  |
| Mobility in soil          | No data available.  |
| Other adverse effects     | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. |

### 13. Disposal considerations

| Disposal instructions                    | Collect and reclaim or dispose in sealed containers at licensed waste disposal site.   |
|--|--|
| Local disposal regulations               | Dispose in accordance with all applicable regulations.   |
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). |
| Contaminated packaging                   | Empty containers should be taken to an approved waste handling site for recycling or disposal.<br>Since emptied containers may retain product residue, follow label warnings even after container is<br>emptied. |

### 14. Transport information

### DOT

Not regulated as dangerous goods.

### ΙΑΤΑ

Not regulated as dangerous goods.

### IMDG

Not regulated as dangerous goods.

Transport in bulk according to This substance/mixture is not intended to be transported in bulk. Annex II of MARPOL 73/78 and the IBC Code

# 15. Regulatory information

**US** federal regulations

This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are on the U.S. EPA TSCA Inventory List.

# TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

### SARA 304 Emergency release notification

Not regulated.

### OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050) Not listed.

### Superfund Amendments and Reauthorization Act of 1986 (SARA)

### **Hazard categories**

Immediate Hazard - No Delayed Hazard - No Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No

#### SARA 302 Extremely hazardous substance

Not listed.

SARA 311/312 Hazardous No chemical

### SARA 313 (TRI reporting)

Not regulated.

### Other federal regulations

### Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

### Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act Not regulated.

(SDWA)

### **US state regulations**

**US. Massachusetts RTK - Substance List** 

- Not regulated.
- US. New Jersey Worker and Community Right-to-Know Act Not listed.
- US. Pennsylvania Worker and Community Right-to-Know Law
  - Not listed.
- **US. Rhode Island RTK**

Not regulated.

### **US. California Proposition 65**

California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.

### International Inventories

| Country(s) or region        | Inventory name  | On inventory (yes/no)* |
|-----------------------------|---|------------------------|
| Australia                   | Australian Inventory of Chemical Substances (AICS)                        | Yes                    |
